

Dear Mark,

Permagard product is truly amazing!!

Not only does it bring the best shine and deep color of the car but also add an extra layer of protection. After the Permagard treatment, the surface of the car looks stunning and is smooth as silk.

My Permagard treatment was done professionally by one of their certified agents, Prestige Auto Salon, Sydney. The service there is simply first class.

When I picked up the car, the staff from Prestige Auto Salon was willing to spend time to explain how I should treat the car in the future. I was most impressed by that. They also offer a guarantee should I have any issue with the treatment.

I took the car for a few hours drive up North from Sydney. When we came back, the car was naturally full of dirt and little black spots. The amazing thing is that instead of the usual shampoo and scrubbing and buffing, all I have to do is to chamois the car with a bucket of clean water and all the dirt just came off and the result is still as stunning as before.

I recommend Permagard product to anyone who loves their cars and congratulates Prestige Auto Salon for their outstanding customer service.

Eddie Fan
